

In addition to FAQ we are also going to add a new price point between free house and clubhouse called 'powerhouse'

**Powerhouse text needs adding to the membership page (see *presentation*)** and it needs a link to the PayPal for £99.00 plus Vat

In addition for free house, powerhouse there needs to be a sentence or button which says '**improve my status**' and when you click on it, it takes you back to membership page.

So to be clear for

**Free house**

**In free house we would like an 'improve my status' button or [click here](#) to take you back to our members page showing the packages**

Power house

99.00 plus vat

**When you choose PowerHouse package they need to pay via the PayPal and there needs to be an 'improve my status' button on the 'powerhouse' add venue page which would look like free house but visibly the member should be able to see 2 pictures and not one and the detail of their back power shot and comment should be visible.**

**If they decide to improve their status button on this page should take you straight to a PayPal for clubhouse but the cost in PayPal would be the difference between clubhouse and powerhouse membership fees which is £100 plus VAT.**

We will then be able to publish, free house, PowerHouse, clubhouse and make sure there is a category for publishing penthouse.
